

## **Water works**

Divide the class into teams with five or six people in each team

Each team has to write down 5 points on the given topic

Each valid point gets 1 star

Each unique valid point (something that others do not have) gets 2 stars

The group with the most number of stars wins

Sample Topics:

- Uses of water
- Water is fun because...
- What can I do to conserve water at home
- What can we do to conserve water at school
- Causes of water pollution
- Innovative ways of harvesting rainwater
- Advantages of multi-purpose river valley projects
- Disadvantages of multi-purpose river valley projects
- At home we take these steps to care for the environment.....
